COLOURS & STYLES

TIER flooring is designed to be beautiful and functional. TIER is available in a wide range of natural colours and tones that embody the look of wooden flooring, without the maintenance hassle or environmental impact. Engineered to last and tastefully designed, TIER will enhance the look and functionality of your space. Choose from our range of colour options to make your floors a standout feature.

Rustic Oak Grey

Restored Fir Sliver

Washed Oak Caramel

Reclaimed Fir Tabby

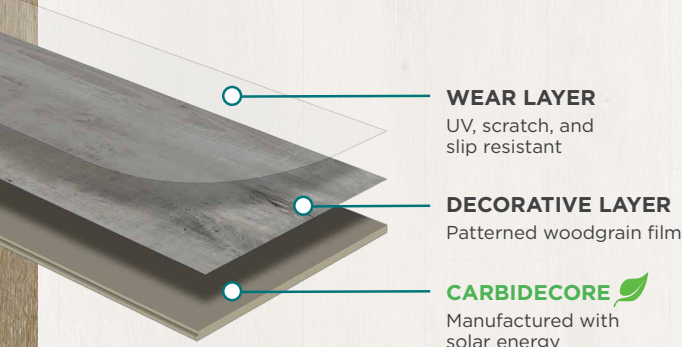

Washed Oak Blonde

NOTE: Due to printing and/or screen variations, colours in this brochure may differ from the actual products.

SPC INDOOR FLOORING

With CarbideCore technology

TIER Classic flooring offers an embossed wear layer, giving your floor a natural and tactile feeling. Anti-slip features and UV protection provide greater longevity, safety, and style.

TIERS OF TIER CLASSIC

Engineered Polymer Wear Layer

TIER flooring has a scratch resistant, anti-slip, UV resistant wear layer that you would expect from a quality flooring product. TIER flooring has an embossed surface for a more realistic texture and feeling.

Decorative Layer

TIER Classic flooring is available in a diverse range of natural-looking colours and a patterned woodgrain texture.

Rigid SPC CarbideCore

The core of TIER Classic flooring is a mixture of powdered minerals and vinyl resulting in a very rigid core. Using a pre-mixing technique before extruding the core of each profile enhances the aggregate dispersion of the SPC allowing for improved board flexibility.

TECHNICAL INFORMATION

TIER Classic is designed for versatility as well as durability. TIER Classic is a 4.3 mm profile which consists of a 4 mm CarbideCore and a 0.3 mm wear layer. This offers an AC3 wear rating, ideal for residential applications, with a 25-year warranty. The board comes with a 2G click installation system.

4.3 MM PROFILE

2G CLICK SYSTEM

This type of click system involves angling flooring panels to engage the locking mechanism. This results in sturdy and dependable horizontal locking, preventing gaps between planks, as well as vertical locking which ensures no unwanted height differences across the floor.

TIER CLASSIC SPECIFICATIONS

Total thickness	Dimensions	Boards per box
4.30 mm	181 x 1 220 mm	10
